

ENERGY FOR SUSTAINABLE FUTURE

ALMAS
ENERGY TRADING PTE LTD

ABOUT US

We are an independent, competitive company that deals with trade and transport of energy commodities around the world. Our primary focus is on solid fuel trading, but we're also exploring new energy forms. Our trading teams collaborate closely with our shipping department to provide our clients with a cost-effective and seamless service. Our shipping department not only assists with our trading activities, but also makes its vessels available to other firms for transporting items such as steel products alumina, minerals and grain, besides coal.

COMPANY OVERVIEW

Vision

Our vision is to be the leading energy company in the world.

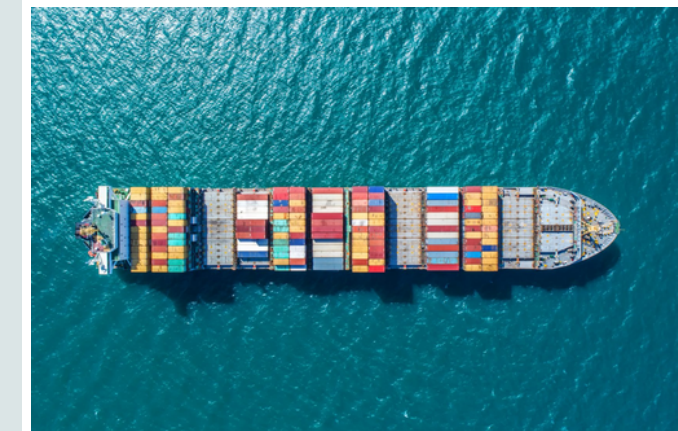

Mission

Our aim is to provide high quality products for your business needs.

OUR ACTIVITIES:

Coal Trading

Trading coal from mines from Indonesia and Australia for domestic and export market.

Marine

We operate a fleet of tugboats & barge, as well as multiple units of floating crane.

Power Plant

Development of Mine Mouth Coal Fired Power Plant.

Others

Transporting Steel products, Alumina, Iron Ore, Grains, globally in various routes basis on our Clients' requirements.

Almas Energy PTE Ltd. was established as a energy trading company, with a range of coal-related businesses, including Trading, Shipping, and Logistics.

We are establishing ourselves as a dominant player in the Asian coal market. With 3.6 billion metric tons of resources in various coal specifications, we aim to meet the growing demands of the market.

Almas Energy PTE Ltd. has built up close relationship with various clients around the world providing them top transportation solutions.

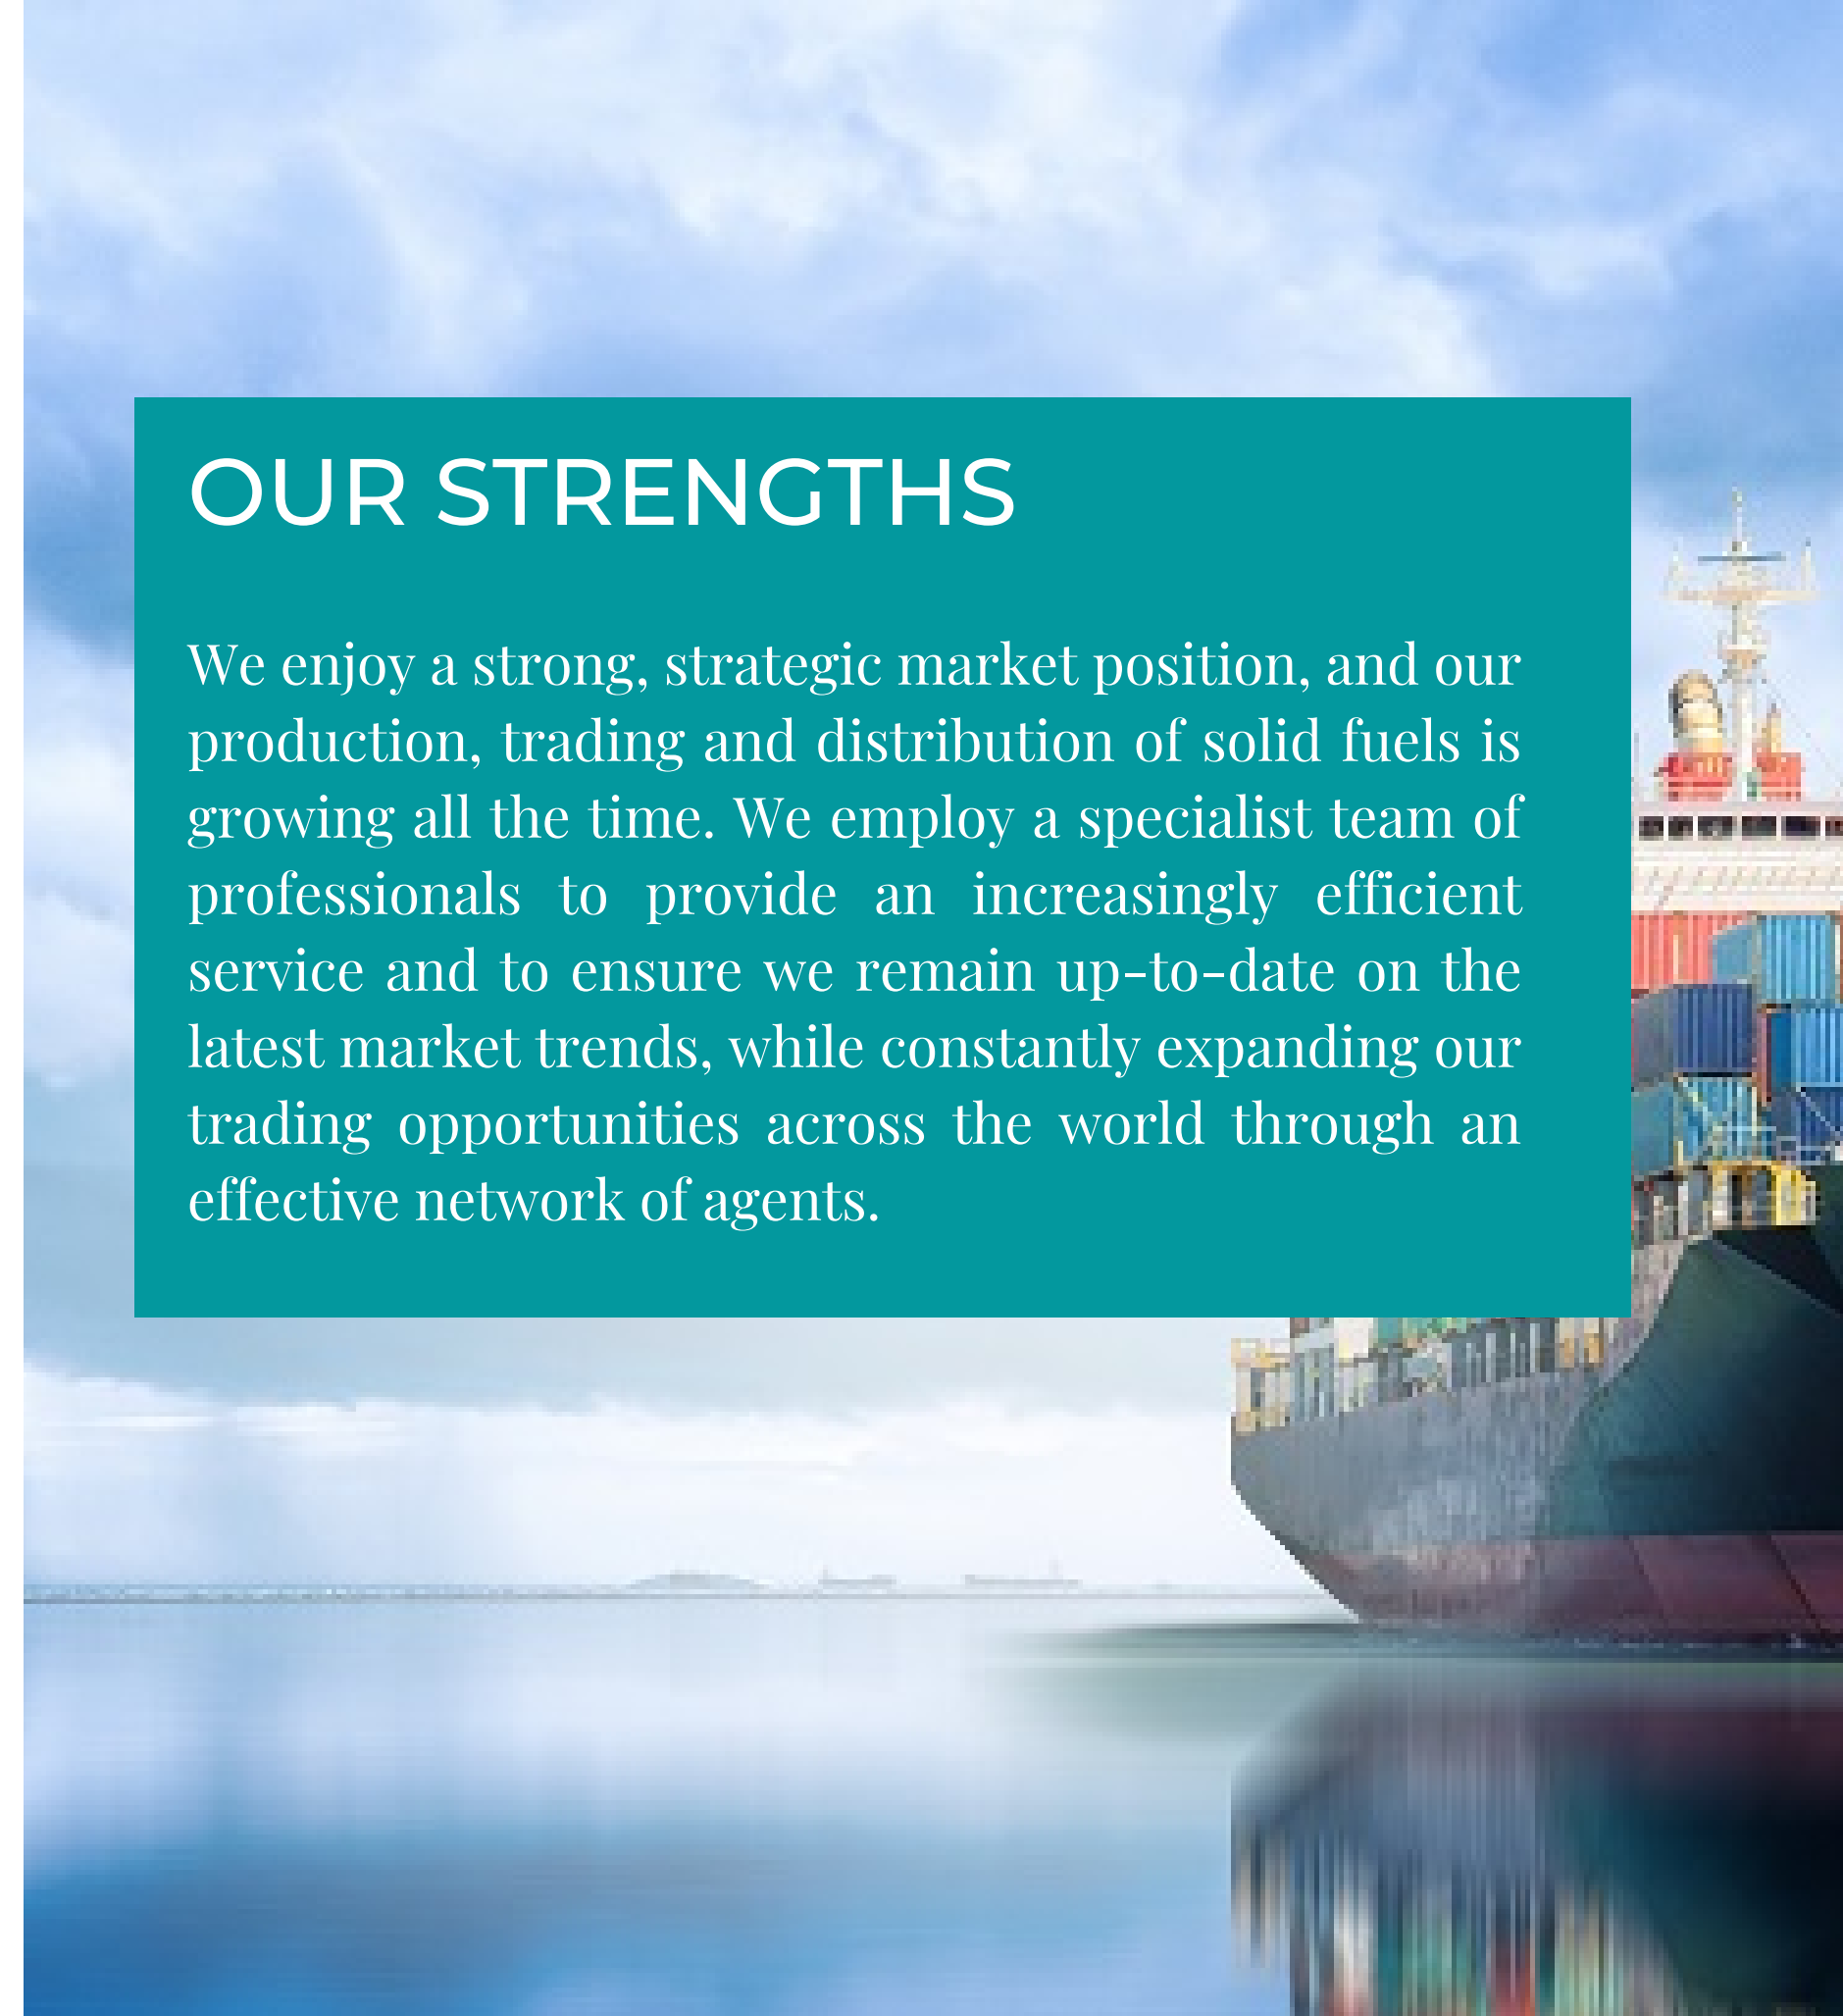

We focus on long-term supply contracts with power utilities and end-users, which provide security and stability for our suppliers.

Specialization in Trading:

- Coal/ Coke
- Oil
- Gas (LPG/ LNG)

OUR STRENGTHS

We enjoy a strong, strategic market position, and our production, trading and distribution of solid fuels is growing all the time. We employ a specialist team of professionals to provide an increasingly efficient service and to ensure we remain up-to-date on the latest market trends, while constantly expanding our trading opportunities across the world through an effective network of agents.

COAL TRADING & MANAGEMENT

We trade and manage a portfolio of various grades of thermal coal, sourced from **leading producer countries** of Indonesia; and marketed into key consumer markets across **Asia Pacific**.

East Kalimantan

Comfortably located in the middle of 3 major cities in East Kalimantan, the area of Loa Janan is the perfect location and hub to transport our lower calorific value coals.

South Kalimantan

South Kalimantan is strategically located at the center of the country, which provides efficiency in both local and international trade routes.

South Sumatera

With its expanding trade routes, South Sumatera is one of the largest coal reserve in Indonesia.

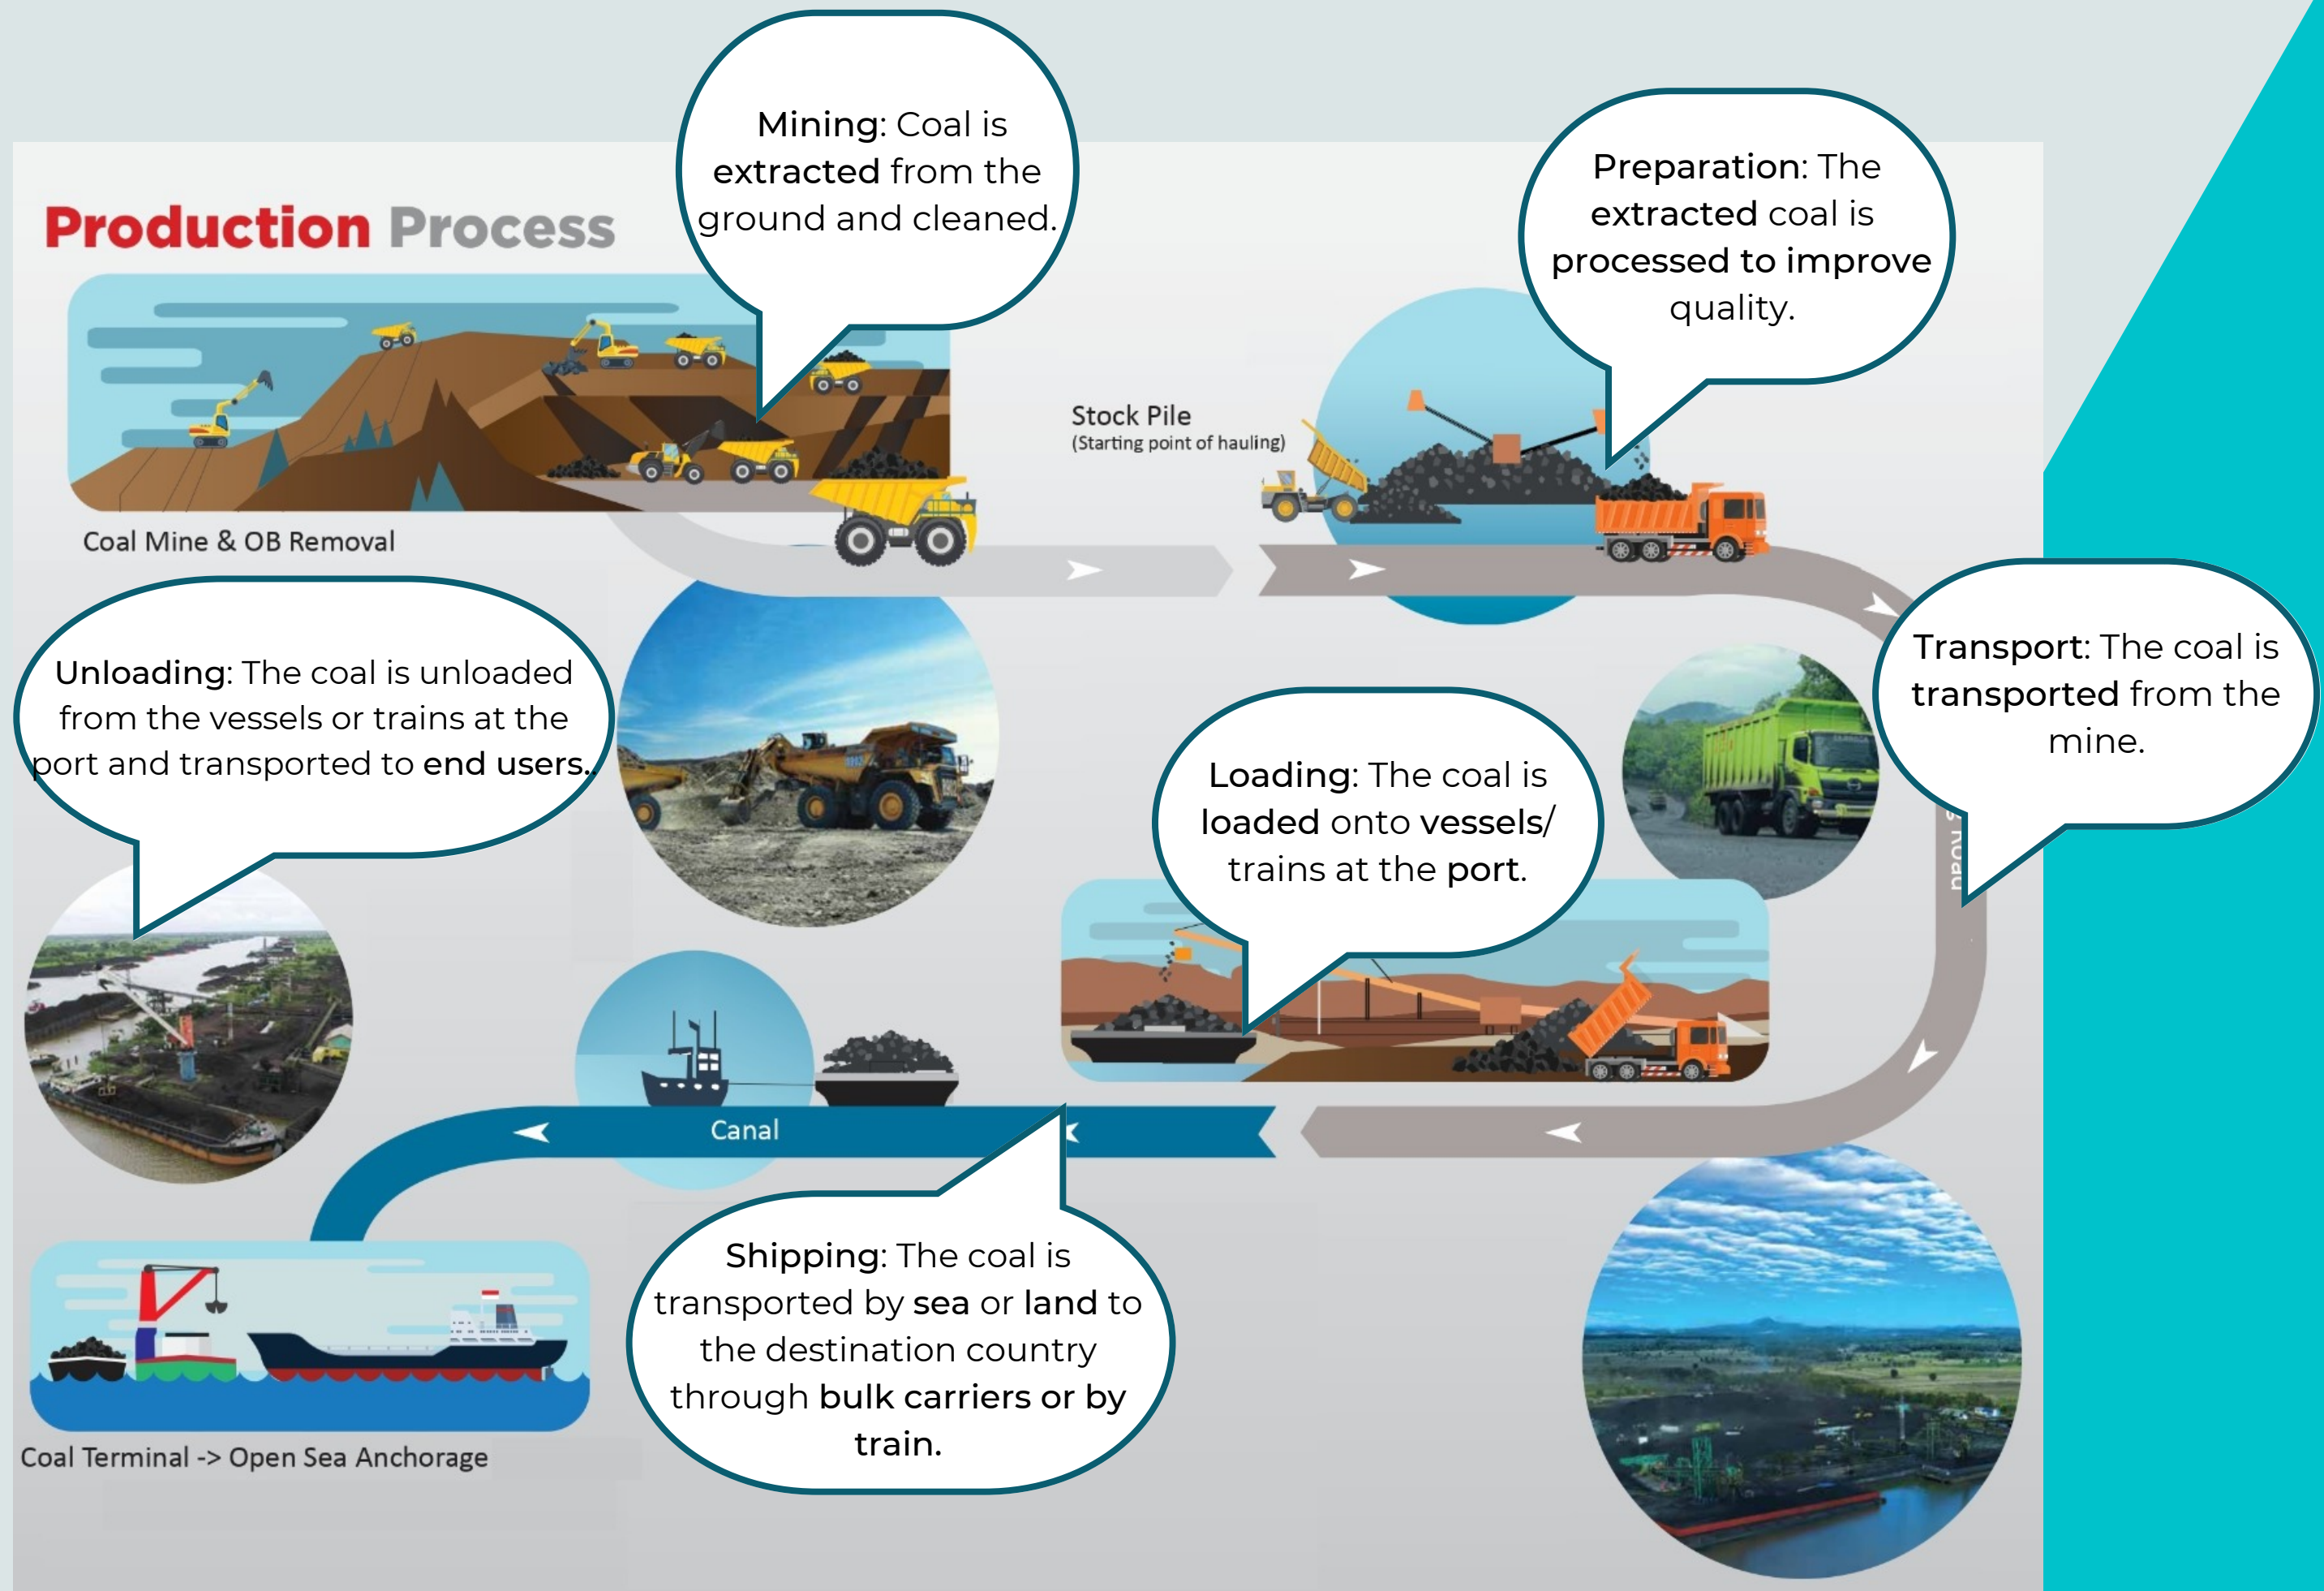

North Kalimantan

The coal mines has the highest quality of coal with GAR Values over 5,000 kCal/ kg. Clients with requirements of high Calorific values of coal are supplied from these sites.
